

VALUE PRICING

More than just a number, value-pricing requires many considerations.

For Patients:

Join for free.

No monthly or annual membership fees.

Pay only if and when you use a service.

Quick access to healthcare.

Costs are generally lower than the same service in-office.

Value added for the convenience of not missing work or having to leave home.

Low-price secure messaging solves some issues without even having an appointment.

Up-front pricing as posted by your provider.

Cash-pay options for uninsured patients.

Insurance accepted pending carrier approval, see your provider for details.
